

Education

"Tudor Vianu" National College of Computer Science

Bucharest, Romania, Sep 2023 - June 2027

Mathematics and Computer Science - Olympics Class - Intensive CS Level - GPA 9.7/10

Yale Young Global Scholars 2026 - Information in Science & Technology - The only Romanian high school student admitted with scholarship

Experience

OCR230 - Automating Romanian tax-form 230 (redirecting money) for NGOs

Romania, Dec 2024 - Present

Founder & Developer

- Automating data extraction for NGOs' tax forms, improving time efficiency by 75%. Used by 100+ NGOs, available in Microsoft Store. Helped NGOs receive \$100k+ from personal income tax in support of 120+ kids born prematurely.

Romania's Budget Website

Romania, Apr 2026 - Present

- Developed interactive civic tech platform visualizing Romania's state budget using public data. Reached 7,000+ users.
- Featured in [Economedica interview](#) (2026)

AdvancedEd Link Startup

Oct 2025 - Present

- Founded EdTech startup building a neuroadaptive learning platform, [Harvard President Innovation Challenge 2026 Semifinalist](#)
- Responsible for technical architecture and adaptive practice engine

SC ACROM SRL

Romania, Jan 2025 - Sep 2025

Software developer internship

- Improved NLP ticket classifier accuracy by 10% (scikit-learn, TensorFlow), built predictive POS monitoring system
- Neural network analysis for IT security in the HoReCa (Hospitality) businesses.

Leadership & Activities

Code Sinaia - Summer Coding Program - INPROTED US based non-profit

Romania, June 2024 - Present

Organization team & Instructor, Volunteer

- Coordinated 3 editions for 150+ kids, teaching STEM through hands-on AI & DataScience & Networking workshops

National Students Council - Press Office

Romania, Oct 2025 - Present

Web Developer

- Led nationwide coordination of student web development to modernize the Council's digital infrastructure.
- Designed and implemented scalable web solutions supporting communication for 2M+ students across Romania

Romanian Masters of Informatics

Romania, Oct 2023 - Present

Member of the Technical Committee & Web Developer

- Coordinated volunteers & logistics for 200+ contestants & leaders.
- Ensured servers functionality during competition days, managed the website.

5843 AutoVortex & 19099 HTech First Tech Challenge

Romania, Oct 2023 - June 2025

Programming department

- Organized 33 events with 1,000+ attendees, secured \$2,000 and 3 new sponsors. Recruited and mentored 25 members.
- Trained high school recruits in Java & Python, implemented autonomy paths for robot. Received Smart City Award.

Awards

- Silver Medal (6th Place 2026, 9th Place in 2025)** National Olympiad of Digital Creativity InfoEducație for **OCR230**
- Bronze Medal (2024), Silver Medal (2026)** National IT&C Olympiad

Research

AI and Machine Learning: Addressing Social Problems with Dr. Danny Ebanks (Harvard University)

Nov 2025 - Aug 2026

- AI Class Bias in LLM Resume Screening
- End-to-end research pipeline: 10,000 synthetic resumes, conjoint design, OLS/LPM regression analysis, LaTeX paper.
- Presented results at a symposium at King's College, University of Cambridge, July 2026

Publications

"Green Robot: the contribution of technology to environmental conservation" in "Terra is crying, save it"

March, 2025

- Developed an eco-robot prototype using computer vision (OpenCV) and AI to recognize and sort waste, demonstrating how AI-driven robotics can improve recycling efficiency.

"Artificial Intelligence for nature conservation" in "Terra is crying, save it"

March, 2026

- Designed a conceptual framework for intelligent eco-cameras integrating multimodal sensors (vision, audio, motion, temperature) with on-device AI for real-time wildlife monitoring and threat detection.

Skills

- Languages:** Python, C++ competitive programming, Java, TypeScript, JavaScript
- AI/ML:** scikit-learn, TensorFlow, PyTorch, Anthropic/OpenAI SDK
