

Rares Mihai Anghel

Bucharest, Romania • raresanghel2008@gmail.com • <https://www.linkedin.com/in/raresanghel/> • raresanghel.com

Developer and researcher building civic and nonprofit software and auditing AI hiring bias. Aspiring computer science student.

Education

“Tudor Vianu” National College of Computer Science

Bucharest, Romania, Sep 2023 - June 2027

Mathematics and Computer Science - Olympics Class - Intensive CS Level - GPA 9.7/10

Yale Young Global Scholars 2026 - Information in Science & Technology

- Attended seminars and lectures in STEM & AI, built YYGS Connect, a networking platform with 170+ users in 24 hours
- Capstone project: prototyped ASL-translating smart glasses using computer vision and on-device AI

Experience

OCR230 - Automating tax-form 230 (redirecting money) for NGOs, Founder & Developer

Romania, Dec 2024 - Present

- Automated data extraction for NGOs' tax forms, improving time efficiency by 75%. Used by 100+ NGOs, available in Microsoft Store. Helped NGOs receive \$1M+ from personal income tax in support of 200+ kids born prematurely.

Romania's Budget Website (independent civic project, not an official government site)

Romania, Apr 2026 - Present

- Developed interactive civic tech platform visualizing Romania's state budget using public data, with a “Higher or Lower” game. Reached 8,000+ users and 150,000+ LinkedIn views. Featured in Economedia interview (2026)

AdvancedEd Link Startup

Oct 2025 - Present

- Co-founded a neuroadaptive learning platform, Harvard President's Innovation Challenge 2026 Semifinalist
- Responsible for technical architecture and adaptive practice engine. Built adaptive UI personalizing instruction for 10k+ students, measuring user progress via machine learning

Antech Consulting (ACROM), Product Development Intern

Romania, Jan 2025 - Sep 2025

- Improved NLP ticket classifier accuracy by 10% (scikit-learn, TensorFlow), built predictive POS monitoring system
- Neural network analysis for IT security in the HoReCa (Hospitality) businesses.

Leadership & Activities

Code Sinaia - Summer Coding Program - INPROTED, Instructor & Teaching Assistant

Romania, June 2024 - Present

- Coordinated 3 editions for 150+ kids, teaching 4 AI, Data Science & Networking workshops alongside Microsoft professionals

National Students Council, Web Developer & National Tech Committee Supervisor

Romania, Oct 2025 - Present

- Supervised 40 regional web departments and modernized digital infrastructure for executive elections and data management.
- Designed and implemented scalable web solutions supporting communication for 2M+ students across Romania

Romanian Master of Informatics, Member of the Technical Committee & Web Developer

Romania, Oct 2023 - Present

- Coordinated volunteers & logistics for 250+ students and team leaders.
- Ensured server uptime during competition days and managed the website.

AutoVortex #5843 & HTech #19099 (FIRST Tech Challenge), 1430X (VEX), Head of Programming

Oct 2023 - June 2026

- Trained 15+ recruits in Java & Python. Oversaw implementation of autonomous navigation paths for robots.
- Raised \$10k+ via 15+ events. Won Smart City Award.

Municipal Sports Club Ploiesti (CSM) & Private Tutoring, Chess Tutor

Romania, June 2023 - Present

- Trained 100+ children aged 6-14 in strategic thinking, students won 10+ national and 8 European medals. Earned \$1,000+ tutoring.

Educativa - International University Fair (IUF), Volunteer (2025), Team Lead (2026), Mentorship Board

Romania, 2025 - Present

- Coached leaders on event preparation and execution. Coordinated 100+ volunteers, reaching 10k+ attendees and raising \$1k+.

Awards

- **Silver Medal (6th 2026, 9th 2025)** National Olympiad of Creativity and Digital Innovation (InfoEducatie) for **OCR230**
- **Bronze Medal (2024), Honorable Mention (2025), Silver Medal (2026, 17th Place)** National IT&C Olympiad

Research

Cambridge Centre for International Research (CCIR)

Nov 2025 - Aug 2026

AI and ML: Addressing Social Problems, with Dr. Danny Ebanks (Harvard IQSS) and Dominic Skinnion (MIT)

- Sole author of “Class Bias in LLM-Based Resume Screening”: conjoint audit of Claude Sonnet 4.6, Gemini 3.5 Flash and Qwen 2.5 (7B) on 30,045 scored resume evaluations (AMCE, OLS/LPM).
- Found no model passes the EEOC four-fifths rule in both occupations: Claude fails for Data Analysts (impact ratio 0.62), Gemini for Software Engineers (0.69), Qwen for both.
- Presented at the CCIR Student Research Symposium, King's College, Cambridge, July 2026

Publications

“Green Robot: the contribution of technology to environmental conservation” in “Terra is crying, save it”

June, 2025

- Developed an eco-robot prototype using computer vision (OpenCV) and AI to recognize and sort waste.

“Artificial Intelligence for nature conservation” in “Terra is crying, save it”

June, 2026

- Designed a conceptual framework for on-device AI eco-cameras with multimodal sensors for real-time wildlife monitoring.

Skills

- **Languages:** Python, C++ (competitive programming), Java, TypeScript, JavaScript
- **AI/ML:** scikit-learn, TensorFlow, PyTorch, Anthropic/OpenAI SDK
