Bucharest, RO

Volunteer, Fundraiser

July 2024 - Sep 2024

- Volunteered 100+ hours, raised \$1,000+ for underprivileged children born prematurely and with special needs

Research

AI and Machine Learning: Addressing Social Problems with Dr. Danny Ebanks (Harvard University)

Nov 2025 - Aug 2026

Publications

"Green Robot: the contribution of technology to environmental conservation" in "Terra is crying, save it"

March, 2025

- Developed an eco-robot prototype using computer vision (OpenCV) and AI to recognize and sort waste, demonstrating how AI-driven robotics can improve recycling efficiency.

"Artificial Intelligence for nature conservation" in "Terra is crying, save it"

March, 2026

- Designed a conceptual framework for intelligent eco-cameras integrating multimodal sensors (vision, audio, motion, temperature) with on-device AI for real-time wildlife monitoring and threat detection.
